CESSNA CITATION MUSTANG C510

The Citation Mustang is the ideal air taxi for up to 4 passengers. It can get into airfields that its larger counterparts are unable to. It combines the comfort of a large business jet with the freedom to roam of a light aircraft. The speed and range inspired per-

formance of this aircraft will tackle the sky like a jet, while delivering the efficiency of a lighter aircraft. The aerodynamic design and advanced technology of the Mustang make for exceptional short-field performance and the ability to cruise over the weather.
